

USER PRICE AND DRIVER DRIVE

And that's the concept we are working on.

For example

John needs a taxi. He wants to go to Melbourne airport from Melbourne central. Now in our app it will show how much does it cost that trip on ride share and cost on a taxi. Then he can decide travelling on his offered price and send a request to get a taxi. Whoever wants to do that job, can accept it. In the offer or in the accept screen it will show trip cost on ride share and trip cost in taxi. ETA, distance and duration of the destination. Exchange each other details to contact. There are some extra charges apply like selecting specific vehicle, travelling on a toll road, waiting, detour.

TAXI GURU MELBOURNE We do not recognise the taxi meter or company pricing policy. The price will be shown on our app based on regular company pricing or meter reading, does not apply surge pricing, the different tariff on the taxi meter, any kind of discounted rates, any special offer. Simply our shown pricing based on calculations, not based on circumstances.

And TAXI GURU MELBOURNE is not liable for any price quote given.

We believe in affordable and consideration pricing
